About me

Software Engineering graduates passionate about Web development (MERN Stack).

Education

I passed HSC & SSC from BMARPC Bangladesh Dhaka.
Currently doing Bachelor of Software Engineering, Universiti Teknologi Malaysia, Johor Bahru. October 2018-present.
My current cgpa is :3.00

Contribution

Website: Last semester I made a website which is Smart-e-learning.
Mobile App: I made a mobile app named UTM Explorer. It helps a new student as a tourist guide.
Testing: In my last semester I have explored software quality testing and I have tested one of my own projects by taking an SQA course. And now I know how to do the work collaboratively and I can use GitHub, Gitbash, and every collaborative tool.
